Panthenol---Application in Cosmetics

To the best of our knowledge as of today, the Panthenol which manufactured by Hangzhou Xinfu Science & Technology Co., Ltd. can be used as an ingredient of cosmetics products with following said benefits.

1. Nourishment to skin:

- Superior deepened moisturizing properties: with relatively small molecular weight, Panthenol permeate cuticle efficiently and regulate its moisture content. Thus, prevent skin from rough. Soften the skin and keep it from oil and sticky.
- Stimulate the growth of epithelial cell. Accelerate wound healing of skin, and repair tissue. Panthenol has good curative effect to sun-burn, eczema and diaper rash of infant.

2. Nourishment to hair:

- Penetrates into the hair cortex, improve the ability of hair to regulate its moisture content in conditions of varying relative humidity.
- Shining the hair.
- Preventing hair from becoming brittle or bifurcated.
- Increasing the resistance of hair to damage and repairing damaged hair.
- Panthenol nourishes hair if present in a shampoo or other hair care products.

3. **Nourishment to nails:** Panthenol enhance the hydration and improve the suppleness of nail.
