Storage information

Shelf life

12 months

Storage temperature

Keep the storage temperature between + 15 °C and + 30 °C

Storage conditions

In original sealed containers and protected from moisture

Additional information

Because Fresicle™ E is the high concentration of oil droplets, if it is stored at temperature lower than 0 °C, sample may be frozen that will break the droplets. If it is stored at the temperature higher than 40 °C, droplets may coalescence. The appearance of the droplets will change and cannot recovery. Please ensure the temperature required during transportation and storage.
